

EnergyWorks @ Work

Bringing the Power to Save to You!

EnergyWorks empowers homeowners to save energy and money through home energy efficiency improvements. By bringing together expert advisors, all available rebates, tax credits and low-interest loans, and a strong quality assurance program, EnergyWorks makes energy efficiency improvement projects simple, affordable, and reliable.

Through *EnergyWorks @ Work*, you can offer your employees a free consultation with EnergyWorks staff to discuss their homes' heating systems, air leakage, and other opportunities for energy conservation. The employee will also learn about what is involved in a home energy assessment, finance options for energy efficient improvements, and can schedule an assessment with a certified building analyst.

EnergyWorks will provide:

- E-blast content for weekly reminders of *EnergyWorks @ Work* Events.
- Newsletter or Blog stories for company publications.
- Posters, flyers and paycheck stuffers.
- Energy efficient giveaways and resources for the events.

Employers will provide:

- Workshop space, date and time
- Employee liaison for scheduling and coordination

EnergyWorks is an initiative of the Metropolitan Caucus, a coalition of senior elected officials from Bucks, Chester, Delaware, Montgomery, and Philadelphia counties. EnergyWorks is funded by the US Department of Energy.
