# Thomas Dambo TROLLS

Save the humans

1

### Ronja Redeye

Ronja Redeye, considered the best communicator among the traveling Troll tribe, speaks to humans because she wants them to rethink their relationship with wildlife and our planet.

2

### Rosa Sunfinger

Rosa Sunfinger, an introverted Troll, expresses herself through her care for plants using her life-giving fingers. She knows how important healthy habitats are, and she wants humans to renew the habitats around us with native plants for pollinators.

3

### Basse Buller

Basse Buller is a wild child who spreads his message in mud paint and expresses himself through nature. He refuses to follow the rules, and he refuses to believe that we can't collaborate to make the world a better place for smaller creatures, like amphibians.

4

### Kamma Can

Kamma Can is a creator. Where humans see trash, she sees potential. She wants humans to remember that all trash has to go somewhere, and a lot of it ends up in ocean habitats. She wants humans to recycle as much as possible!

5

### Sofus Lotus

Sofus Lotus is a listener who pays great attention to the little things. He was the first to notice something was wrong with the world—that nature was changing. He wants humans to reconnect with wildlife, like snakes, so that we can reduce our harmful impacts on the planet.

6

### Ibbi Pip

Ibbi Pip tries to communicate with humans through colorful birdhouses. She's observed how humans use them to bring wildlife closer, and she wants humans to reuse old things to make more homes for wildlife.
